Progressive Web App

These checks validate the aspects of a Progressive Web App. [Learn more.](#)

+

Installable

●

Web app manifest and service worker meet the installability requirements

★

PWA Optimized

●

Registers a service worker that controls page and `start_url`

●

Redirects HTTP traffic to HTTPS

●

Configured for a custom splash screen

●

Sets a theme color for the address bar.

●

Content is sized correctly for the viewport

●

Has a `<meta name="viewport">` tag with `width` or `initial-scale`

●

Provides a valid `apple-touch-icon`

●

Manifest has a maskable icon

Team Reflection

- Does the team feel on track?
- What progress does the team feel good about?
- What barriers (if any) does the team feel is a current impediment to success?
- What help(if any) does the team require moving forward?
- What questions or concerns does the team have if any?
